

Attendance

It is the responsibility of each student to know the attendance and absence policy of each class in which he or she is enrolled and to communicate with the instructor, preferably beforehand, concerning an absence. Individual course syllabi may include specific academic attendance requirements for that course. Attendance may be mandatory for academic purposes for certain courses and such academic absences may result in course withdrawal or failure.

Individual course syllabi may include specific academic attendance requirements for that course. Attendance may be mandatory for academic purposes for certain courses and such academic absences may result in course withdrawal or failure.

Academic Consequences - Lack of Attendance, Preparation or Conduct

While individual course syllabi contain detailed, specific academic attendance requirements for that course, the following are standard principles that are applied regardless of course:

- Any lack of attendance which causes a faculty member to conclude that unsatisfactory progress is being made may result in course withdrawal or failure.

- Continued Enrollment: Students who do not continue to participate in a course for a period of more than 10 consecutive days may be dropped from the course.

Participation in class is required for all students, including those who are on medical leave or who are participating in a clinical rotation.

Make-up Work

Students who are absent from class may be required to complete make-up work. The instructor will determine the amount of make-up work required and the deadline for completion.
